

* Group Targets vs 2019 baseline will be confirmed by end of 2022

Our Sustainability Pillars

Environment

Leading the way in environmental sustainability for the industrial inkjet technology sector

People

Be employer of choice by putting our people, their potential and wellbeing at the heart of all we do

Innovation

Encouraging more sustainable approaches to design, manufacture, technology and collaboration across the whole Product Lifecycle

Community

Actively engaging with our communities to provide practical, lasting support that benefits society
